

A new view of GOD and its effect on well-being

A talk by Phillip Hockley, formerly of Wales, now in St. Louis, MO

2:00 pm Sunday, March 10

Things can seem bleak when we see all the kinds of suffering going on in humanity, perhaps even among our own family members or neighbors. But sometimes these very circumstances spur individuals to find new ways to help and heal.

Christian Science gave me a new view of God that I'd not had before: a view of God as Love itself, divine Love that loved me fully.

I also discovered that this loving God was not the source of my troubles (which were many) but the solution to them. My life began to improve quickly after that and I became a healthy man after many years of suffering.

Phillip Hockley is an international speaker and practitioner of Christian Science healing and a member of the Christian Science Board of Lectureship.

February 2019

Dear Friends,

International lecturer, Phillip Hockley, C.S. will share his experience of being healed of severe physical disability after attending a Christian Science lecture. What he went on to learn, and what he will share in his lecture, is that the perspective of God and reality that Christian Science opens up is one that offers freedom from whatever seems painful, debilitating, or limiting in our lives.

This free lecture entitled, "**A New View of God and Its Effect on Healing,**" will be sponsored by First Church of Christ, Scientist, Palos Verdes Peninsula on **Sunday, March 10 at 2:00pm** in the church auditorium. It will include a period for questions and answers. In addition, Mr. Hockley is scheduled to speak at the Los Angeles County Men's Jail.

Please join us in prayer to support these activities with an expanded sense of community that includes all.

We look forward to greeting you and your guests. Childcare will be available.

Warmly,

The Lecture Committee
